Solutions

CONTAMINATED WASTEWATERS HANDLING & TREATMENT

Bulk Recovery Solutions Pty Ltd (BRS) is a Licensed EPA waste facility based at Ingleburn, only minutes from the M5/M7 Motorways and the Hume Hwy.

BRS is an industry leading operation for the treatment of solid and liquid waste, and has now expanded into the treatment and handling of contaminated wastewater streams including oily waters, water based oil emulsions, industrial wastewater and numerous other waste streams.

BRS provide 24 hour a day emergency services, 365 days per year, and our site is functional for all weather access to ensure safe unloading and efficient turnaround times.

Tipping at BRS will give you peace of mind that your waste will be treated and disposed of to meet EPA requirements, using the best and safest practices. Receive, Treat, Recover and Recycle is our goal.

Oil, water and other reusable components are recovered, enabling your business to responsibly meet its waste disposal obligations.

If you have any queries, please feel free to contact our professional staff at BRS.

WE TREAT A WIDE RANGE OF LIQUID, SLUDGE & OILY WASTE
